*3 **MR PARTON:** To move—That this Assembly:

- (1) notes that:
 - (a) the recently announced ACT Labor gaming policy would see ATMs and EFT withdrawals banned at all licenced clubs despite a move to cashless gaming;

- (b) Government policy overseen by the Greens Minister would see the establishment of an expensive Central Monitoring System apparently funded by clubs;
 - (c) both governing parties look set to attempt to outdo each other on machine reductions with the most recent Labor plan aiming for a reduction to 1,000 machines by 2045; and
 - (d) the overwhelming reaction from clubs is that either one of these policy proposals will lead to the entire collapse of the community club sector in the ACT;
- (2) further notes:
- (a) the Labor-Greens Government has made numerous previous commitments regarding club diversification yet failed to achieve any of them;
 - (b) the community clubs sector in the ACT supports hundreds of community organisations that simply would not exist without their support;
 - (c) there are 43 licensed clubs in the ACT employing over 1,700 staff and supporting huge local supply chains in food and beverage;
 - (d) our clubs manage and maintain a swag of sporting infrastructure including 400 hectares of greenspace for community use, and support nearly 400 sporting groups;
 - (e) official data from the ACT Gambling and Racing Commission shows that over the last 10 years, our clubs have provided more than \$150 million in community contributions;
 - (f) our clubs have contributed over \$300 million in gaming taxes in that same period;
 - (g) during the Covid period, Canberrans flocked to Queanbeyan clubs in unprecedented numbers during the six week period when ACT clubs were closed, but they had re-opened in NSW;
 - (h) Canberra's community clubs help build social cohesion to tackle loneliness and social isolation; and
 - (i) the community clubs sector has been unfairly demonised by the Labor-Greens Government;
- (3) calls on the ACT Government to explain:
- (a) how they intend to maintain all of the sporting infrastructure which is currently maintained by community clubs;
 - (b) how they intend to support the hundreds of community organisations that exist from club support;
 - (c) how they intend to replace the hundreds of millions in foregone gaming tax revenue;
 - (d) how they intend to support the 1,700 direct staff and other supporting workers in related industries who are likely to lose their jobs;

- (e) whether a “club of the future” in the Molonglo Valley will simply be a government-run bar and restaurant; and
- (f) report back to the Assembly by the final sitting day of August; and
- (4) further calls on ACT Labor to divest itself of all poker machines operated by the Canberra Labor Clubs and to hand them back, without any taxpayer funded compensation. (*Notice given 24 June 2024. Notice will be removed from the Notice Paper unless called on within 4 sitting weeks – standing order 125A*).

*4 **MR BRADDOCK:** To move—That this Assembly:

- (1) notes:
 - (a) adopting a participatory approach to making decisions about suburban improvements provides an opportunity for people to connect with others in their community and gives them a voice in deciding the future of their suburb;
 - (b) it is important for governments to welcome a broad range of ideas for consideration and implementation, and that they be considered with the recognition that people are experts in their own lived experiences;
 - (c) benefits of effective participatory democracy-based consultation include greater local community connections and resilience, improved skills and knowledge, and an engaged community that is willing to participate and contribute to their neighbourhood; and
 - (d) the “My little BIG idea” program for Richardson and Page investigated how Canberrans can assist government decision-making about the ways their communities are supported. It built on previous programs inviting input from Canberrans on what is needed in their suburb and explored how participatory approaches can be integrated into existing budget consultation processes;
- (2) calls on the Government to release the evaluation reports from the neighbourhood democracy pilot projects in Richardson and Page as soon as possible;
- (3) recognises that people are experts in their own lives, and that respecting their lived experiences must be a central consideration when supporting the development of local communities;
- (4) agrees that the application of participatory democracy principles is important in the determination of suburb-level priorities and the allocation of funds for suburb-level projects, in order to achieve the best outcomes and avoid any perception of “pork-barrelling”; and
- (5) calls for future expansions of neighbourhood democracy programs to consider the experiences of the Page and Richardson pilot projects, ensure that budgets are of an effective size, consider a suburb’s relative size, and are available to all suburbs in the ACT. (*Notice given 24 June 2024. Notice will be removed from the Notice Paper unless called on within 4 sitting weeks – standing order 125A*).

*5 **MS LAWDER:** To move—That this Assembly:

- (1) acknowledges that:
 - (a) walking, jogging, cycling, riding, scooting and skating are essential parts of Canberra’s active travel and recreation system. These activities help to enhance fitness, health and general life enjoyment, improve traffic congestion, and reduce greenhouse gas emissions;
 - (b) suburban maintenance standards are important to all Canberrans to enable us to maintain our amenity, enjoyment, and wellbeing;
 - (c) residential rates have been rising, on average, by more than 8 percent over the past decade, which are intended to fund public services, including active transport infrastructure, path maintenance, and community amenity; and
 - (d) community members have a right to expect these public services will be high-quality and delivered as expected;
- (2) notes that:
 - (a) Transport Canberra and City Services have been reducing path resurfacing, falling from 44,000m² in 2020-21, to 40,434m² in 2021-22, to 27,871m² in 2022-23 (asphalt and concrete path works);
 - (b) the Government announced a \$5 million funding commitment for path and cycle maintenance in the 2023-24 Budget, without detail;
 - (c) the Government subsequently announced a \$5.8 million funding commitment for path and cycle maintenance in the 2024-25 Budget, also without detail; and
 - (d) the Government has failed to meet its own target for community satisfaction with the maintenance of community paths;
- (3) condemns the Labor-Greens Government for failing to adequately maintain footpaths across the Territory; and
- (4) calls on the ACT Government to:
 - (a) table financial statements for each of the last five years showing how much the Government has spent on path resurfacing, and how much concrete and asphalt path has been resurfaced for each area, by the end of June 2024;
 - (b) table the most recent Priority Path List for the ACT, along with a yearly comparison of how it has changed each year for the past five years by the end of June 2024;
 - (c) implement a proactive comprehensive maintenance program to ensure footpaths across Canberra are maintained to an acceptable/appropriate standard in the 11th Assembly, as previously recommended in a review; and
 - (d) focus on delivering path maintenance rather than press releases.
(Notice given 24 June 2024. Notice will be removed from the Notice Paper unless called on within 4 sitting weeks – standing order 125A).

*6 **MS CASTLEY:** To move—That this Assembly:

- (1) notes:
 - (a) the ACT Small Business Strategy 2023-2026 was launched in July 2023, and one of its included priority areas is “futureproofing small business”;
 - (b) that the Australian Bureau of Statistics has reported a continued decline in the net movement of surviving businesses, with the September 2023 quarter showing net movement of two, December 2023 negative 33 and the most recent March 2024 quarter negative 58 surviving businesses; and
 - (c) the Australian Securities and Investments Commission insolvency figures for May 2024 increased to 30 from 11 the previous year;
- (2) further notes that:
 - (a) interest rate increases have flowed through the economy, hitting consumer confidence and discretionary spending and this has impacted on the business sector and particularly small business;
 - (b) input costs including labour, energy and insurance have greatly increased and these disproportionately impact on small business;
 - (c) the Government has not provided an update to the ACT Small Business Strategy even though there is a decline in business survivability, and business conditions have deteriorated since the strategy was launched last year; and
 - (d) when the ACT Small Business Strategy was launched, one of the action items was to “commission research to better understand the survival rates of business in Canberra including the success factors and the range of reasons businesses close”, to provide an evidence base for government decision-making to help improve business survival rates; and
- (3) calls on the ACT Government to:
 - (a) ask the Minister for Business to apologise for failing local businesses; and
 - (b) establish a small business ministerial advisory council to give the local business community a seat at the table. (*Notice given 24 June 2024. Notice will be removed from the Notice Paper unless called on within 4 sitting weeks – standing order 125A*).

*7 **MR PETTERSSON:** To move—That this Assembly:

- (1) notes the:
 - (a) *Drugs of Dependence (Personal Cannabis Use) Amendment Act 2019* came into effect on 31 January 2020, thereby legalising the personal possession of small quantities of cannabis in the ACT; and
 - (b) legalisation of cannabis possession in the ACT was an Australian first and began a new chapter of drug law reform led by the evidence-based principles of harm minimisation;

- (2) further notes:
 - (a) ACT Government research undertaken in 2018 showed that 54 percent of Canberrans supported the personal use of cannabis being made legal, with only 27 percent opposed; and
 - (b) in 2022, polling by Uniting NSW.ACT found that 82.3 percent of residents across the ACT support non-pecuniary responses to cannabis use, and 87.2 percent of residents across the ACT support non-criminal responses to cannabis use; and
- (3) calls on all parties to publicly affirm their support in the Chamber for the *Drugs of Dependence (Personal Cannabis Use) Amendment Act 2019* and rule out a politically motivated “review” or repeal of personal cannabis use laws.  - (a) that the ACT Integrity Commission is undertaking an inquiry, Operation Kingfisher, into whether public officials within the ACT Education Directorate failed to exercise their official functions honestly and/or impartially when making recommendations and decisions regarding the Campbell Primary School Modernisation Project between 2019 and 2020;
 - (b) this followed a damning report into the conduct of the procurement process for the project in 2021 by the ACT Auditor-General who found that:
 - (i) “The procurement process for the Campbell Primary School Modernisation Project lacked probity. Tenderers were not dealt with fairly, impartially and consistently”;
 - (ii) “The procurement process was also characterised by informal, uncontrolled and poorly documented communication with tenderers and other parties. This undermines the probity of the procurement process”; and
 - (iii) that the delegate’s decision was not based on the evaluation criteria with which the Territory approached the market and sought tenders; and

Both of those requirements are to be approved in partnership with the territory. The government is not being prescriptive in how the contractor achieves this. The contractor is encouraged to propose efficiencies in collecting this data so that reporting is simplified. It does not require the contractor to weigh every item received but rather to price items in a transparent way. I note that for organisations like this, the National Reuse Measurement Guidelines suggest that the best way to measure impact for these is to use revenue breakdown as a proxy measure.”.
