Case Overview

Subject  
Currawong Childcare YWCA  
Description  
Witnessed various health and hygiene practices that were not at all up to date, for example not changing gloves between changing different children's nappies, stagnant puddles in the playground long enough for mosquitoes to grow, not cleaning of surfaces between uses.  
Additionally each room does not have an fire evacuation map, or sufficient first aid resources for the children in each space.

Thanks and regards
