20 THOROUGHBRED PARK PRECINCT REDEVELOPMENT

Ms Clay, pursuant to notice, moved—That this Assembly:

(1) notes that:

(a) Thoroughbred Park racecourse and surrounds are identified as Category 2 change areas in the 2023 Inner North and City District Strategy;

(b) the Canberra Racing Club lodged a draft plan amendment for Thoroughbred Park in 2024, which was refused in October 2025;

(c) the Territory Planning Authority opted for a precinct-level approach and prepared a draft plan amendment for the whole Thoroughbred Park Precinct (DP-08) which was released for public comment between 17 October and 1 December 2025;

(d) DPA-08 received 151 comments including some supporting retention of the racetrack, greater density, expressing concerns about transport, community infrastructure and liveability and some supporting removal of the racetrack;

(e) the precinct anticipates 6,200 homes and a population between 11,400 to 16,400 people;

(f) redevelopment of Yowani Country Club could have 1,000 to 1,200 dwellings with a population of between 3,000 and 5,000 people plus a hotel;

(g) 2026 enrolment data shows many schools in the area are near capacity: Lyneham High 93 percent, O'Connor Cooperative 93 percent, Dickson College 90 percent, Lyneham Primary 90 percent, Majura Primary 84 percent, North Ainslie Primary 78 percent, Ainslie Primary 77 percent;

(h) the Government has committed to establishing inclusionary zoning and is working on what this will involve, and on 24 July 2026 Government officials said the Thoroughbred Park Precinct will have inclusionary zoning but did not commit to specific numbers or community facilities; and

(i) the Government has committed to a Suburban Land Agency target to allocate at least 15 percent of annual land releases for public, community and affordable housing;

(2) further notes that:

(a) the redevelopment of Thoroughbred Park Precinct and Yowani Country Club will add a population equivalent to three Ainslies to the Inner North;

(b) existing schools may be expanded to meet demand, but Government will not find land in future for a school unless it's set aside now; and

(c) rent-fixed public and community housing and community infrastructure needs to be built into the zoning framework, so developers factor it into planning and financing; and

(3) calls on the Government to:

(a) require developers to provide 10 percent of homes in the Thoroughbred Park Precinct as rent-fixed public housing plus some community housing, all of which is salt-and-peppered throughout the precinct;

(b) require developers to provide playgrounds, parks and community infrastructure;

(c) ensure that the planning for the Thoroughbred Park Precinct sets aside land and accounts for future primary and high school capacity to support additional housing development in the Inner North; and

(d) report to the Assembly on progress on (3)(a) to (3)(c) every six months, starting by the first day of the last sitting week in December 2026.

Mr Steel (Minister for Planning and Sustainable Development), by leave, moved the following amendments together:

1. Omit paragraph (3)(a), substitute:

"(a) ensure developers provide public and community housing in the Thoroughbred Park Precinct;".

2. Omit paragraph (3)(c), substitute:

"(c) ensure that the planning for the precinct accounts for future primary, high school, and college capacity to support additional housing development in the Inner North; and".

Debate continued.

21 SECURE LOCAL JOBS CODE—INDEPENDENT REVIEW—INTEGRITY COMMISSION AND STATUTORY OFFICE HOLDERS—STANDING COMMITTEE—LOBBYING FRAMEWORK REFORMS—REQUEST TO CONSIDER

Mr Parton (Leader of the Opposition), pursuant to notice, moved—That this Assembly:

(1) notes that:

(a) ACT Government procurement should deliver value for money, fair competition, local opportunity and integrity;

(b) no union, employer organisation, industry body, political office or other external organisation should have privileged influence over, or access to, confidential procurement information, tenderer details or decision-makers during a live procurement;

(c) workplace rights and employment standards should be protected through independent regulation, consistently applied laws and objective evidence; and

(d) maintaining public confidence in procurement requires transparency about external representations intended to influence tender processes or outcomes;

(2) further notes that:

(a) the ACT Integrity Commission investigation into the Campbell Primary School Modernisation Project, known as Operation Kingfisher, exposed serious failures in the Territory's procurement processes, including inappropriate communications and attempts to influence a live tender;

(b) these failures damaged public confidence in the fairness, independence and integrity of ACT Government procurement; and

(c) the Secure Local Jobs Code, the memorandum of understanding between the ACT Government and UnionsACT and the Government Procurement (Ethical Treatment of Workers Evaluation) Direction 2023 give unions an inappropriate and privileged role within ACT Government procurement processes; and

(3) calls on the Government to:

(a) abolish the Secure Local Jobs Code and repeal or amend all associated legislative and administrative instruments necessary to give effect to its abolition;

(b) immediately terminate the memorandum of understanding between the ACT Government and UnionsACT relating to procurement;

(c) ensure that no union, employer organisation, political office or other external entity is given privileged access to confidential procurement information or information identifying tenderers during a live procurement;

(d) establish a mandatory, publicly accessible disclosure register for external representations made to ministers, ministerial staff, public servants or procurement officials that seek to influence a government tender or procurement outcome, and require disclosures to identify, subject to appropriate protections for genuinely commercial-in-confidence information:

(i) the person or organisation making the representation;

(ii) the recipient of the representation;

(iii) the date and subject of the representation;

(iv) the procurement process concerned; and

(v) any action taken in response; and

(e) report to the Assembly by the final sitting day of 2026 on the implementation of this motion.

Debate ensued.

Paper: Ms Stephen-Smith (Minister for Finance) presented the following paper:

Procurement of Goods and Services—Memorandum of Understanding between the ACT Government and UnionsACT—Termination—Correspondence between the Minister for Finance and the UnionsACT Secretary, dated 19 August and 8 September 2026.

Ms Stephen-Smith, by leave, moved the following amendments together:

1. Omit paragraphs (1)(b) and (1)(c), substitute:

"(b) no union, employer organisation, industry body, political office, Member of the Legislative Assembly or other external person or organisation should have privileged influence over, or access to, confidential procurement information, tenderer details or decision-makers during a live procurement;

(c) no union, employer organisation, industry body, political office, Member of the Legislative Assembly or other external person or organisation should seek to influence the Government or its officials to commence, undertake or cease a procurement in any way that contravenes procurement rules or probity;".

2. Omit paragraph (2), substitute:

"(2) further notes that:

(a) the ACT Integrity Commission investigation into the Campbell Primary School Modernisation Project, known as Operation Kingfisher, exposed serious failures in the Territory's procurement processes in relation to this project, including inappropriate communications and attempts to influence a live tender;

(b) these findings have damaged public confidence in the fairness, independence and integrity of ACT Government procurement;

(c) the Secure Local Jobs Code (SLJC) seeks to ensure the ACT Government contracts with employers who uphold workplace rights and safety and deliver secure jobs with fair pay, and that these employers cannot be undercut by businesses and organisations that fail to do the right thing by their workers;

(d) the SLJC replaced the 2015 Memorandum of Understanding with UnionsACT (MOU), which the report into Operation Kingfisher acknowledged has not had practical effect since 2019, and which was formally terminated by exchange of letters on 8 September 2026, in accordance with the process set out in the MOU;

(e) the report into Operation Kingfisher states that the SLJC 'amongst other things, reduced the opportunity for unions to influence procurements' compared with the MOU and 'had the major consequence of excluding any consideration by ... a procuring Directorate - of attempts by a union to influence the outcome of a procurement process by giving "advice" as to industrial relations compliance';

(f) in evidence to the Select Committee on Estimates 2026-2027's Inquiry into the Appropriation Bill 2026-2027, the Integrity Commissioner, Mr Michael Adams KC, stated that 'to me, [the SLJC] does seem to be sensible ... [the SLJC] does seem to be a reasonable approach to a difficult problem';

(g) the Government will soon respond to the recent report of the Select Committee on Financial Management and Government Procurement Legislative Compliance, which recommended that 'the ACT Government commission an independent review of the Secure Local Jobs Code to assess whether the Code is effectively achieving the stated outcome';

(h) the Government has publicly indicated it will undertake a review, as recommended by the Select Committee, and has consulted the Secure Local Jobs Code Advisory Council to commence this process;

(i) the Standing Committee on Public Accounts and Administration announced on Tuesday 25 August that it would undertake its own inquiry into the effectiveness and operation of the code;

(j) the Scottish parliament has unanimously passed Community Wealth Building legislation which provides for an economic framework including secure local jobs; and

(k) the ACT Integrity Commission is currently conducting an inquiry into arrangements for lobbying and influence in government in the ACT, which is likely to provide relevant advice on future regulatory frameworks;".

Debate continued.

Mr Braddock moved the following amendment to the motion, as amended: Omit paragraph (3), substitute:

"(3) calls on the ACT Government to:

(a) confirm its intention to commission an independent review of the Secure Local Jobs Code in the context of the wider procurement framework in early 2027, taking account of any evidence and findings from the inquiry by the Standing Committee on Public Accounts and Administration into the Secure Local Jobs Code;

(b) publish, and circulate to Members of the Assembly; draft terms of reference for the Government's review of the Secure Local Jobs Code at least one week before they are finalised to allow the community and Members to comment on them;

(c) ensure the terms of reference incorporate:

(i) consideration of the application and effectiveness of the Government Procurement (Charter of Procurement Values) Direction 2020; and

(ii) consideration of the principles of community wealth building, as outlined in the *Community Wealth Building Act 2026* (Scotland);

(d) on or before the first sitting day in October 2026, provide the Assembly with:

(i) an update on the progress of an independent review of past procurements with elevated risk of corruption similar to those identified in Operation Kingfisher, including providing information on the methodology being applied in that review; and

(ii) documentary evidence of the status of the 2015 Memorandum of Understanding with UnionsACT, including showing when it was terminated;

(e) on or before the first sitting day in February 2027, provide the Assembly with an update on the Government's review of the Secure Local Jobs Code; and

(f) fully comply with all aspects of the current procurement framework, including the full intent of all provisions designed to keep political and improper external influence at arm's length of decision-making; and

(4) requests that the Standing Committee on the Integrity Commission and Statutory Office Holders, subsequent to receiving the anticipated report on lobbying from the ACT Integrity Commission, inquire into and provide recommendations on reforms to the ACT's lobbying framework, including with respect to the management of transparency registers;".

Debate continued.

Ms Carrick moved the following amendment to Mr Braddock's proposed amendment: After paragraph (3)(c)(ii), insert:

"(iii) an assessment of the effectiveness of Local Industry Participation Plans in increasing opportunities for ACT-based businesses, subcontractors, apprentices and local supply chains, and whether the current framework delivers demonstrable value for money and local economic benefits.".

Debate continued.

Ms Carrick's amendment to Mr Braddock's proposed amendment agreed to.

Question—That Mr Braddock's amendment, as amended, be agreed to—put.

The Assembly voted—

AYES, 14		NOES, 7
Andrew Barr	Marisa Paterson	Chiaka Barry
Andrew Braddock	Michael Pettersson	Peter Cain
Fiona Carrick	Chris Steel	Leanne Castley
Tara Cheyne	Rachel Stephen-Smith	Ed Cocks
Jo Clay	Caitlin Tough	Jeremy Hanson
Thomas Emerson	Rebecca Vassarotti	Deborah Morris
Laura Nuttall		Mark Parton
Suzanne Orr		

And so it was resolved in the affirmative.

Question—That the motion, as amended, viz:

"That this Assembly:

(1) notes that:

(a) ACT Government procurement should deliver value for money, fair competition, local opportunity and integrity;

(b) no union, employer organisation, industry body, political office, Member of the Legislative Assembly or other external person or organisation should have privileged influence over, or access to, confidential procurement information, tenderer details or decision-makers during a live procurement;

(c) no union, employer organisation, industry body, political office, Member of the Legislative Assembly or other external person or organisation should seek to influence the Government or its officials to commence, undertake or cease a procurement in any way that contravenes procurement rules or probity; and

(d) maintaining public confidence in procurement requires transparency about external representations intended to influence tender processes or outcomes;

(2) further notes that:

(a) the ACT Integrity Commission investigation into the Campbell Primary School Modernisation Project, known as Operation Kingfisher, exposed serious failures in the Territory's procurement processes in relation to this project, including inappropriate communications and attempts to influence a live tender;

(b) these findings have damaged public confidence in the fairness, independence and integrity of ACT Government procurement;

(c) the Secure Local Jobs Code (SLJC) seeks to ensure the ACT Government· contracts with employers who uphold workplace rights and safety and deliver secure jobs with fair pay, and that these employers cannot be undercut by businesses and organisations that fail to do the right thing by their workers;

(d) the SLJC replaced the 2015 Memorandum of Understanding with UnionsACT (MOU), which the report into Operation Kingfisher acknowledged has not had practical effect since 2019, and which was formally terminated by exchange of letters on 8 September 2026, in accordance with the process set out in the MOU;

(e) the report into Operation Kingfisher states that the SLJC 'amongst other things, reduced the opportunity for unions to influence procurements' compared with the MOU and 'had the major consequence of excluding any consideration by ... a procuring Directorate - of attempts by a union to influence the outcome of a procurement process by giving "advice" as to industrial relations compliance';

(f) in evidence to the Select Committee on Estimates 2026-2027's Inquiry into the Appropriation Bill 2026-2027, the Integrity Commissioner, Mr Michael Adams KC, stated that 'to me, [the SLJC] does seem to be sensible ... [the SLJC] does seem to be a reasonable approach to a difficult problem';

(g) the Government will soon respond to the recent report of the Select Committee on Financial Management and Government Procurement Legislative Compliance, which recommended that 'the ACT Government commission an independent review of the Secure Local Jobs Code to assess whether the Code is effectively achieving the stated outcome';

(h) the Government has publicly indicated it will undertake a review, as recommended by the Select Committee, and has consulted the Secure Local Jobs Code Advisory Council to commence this process;

(i) the Standing Committee on Public Accounts and Administration announced on Tuesday 25 August that it would undertake its own inquiry into the effectiveness and operation of the code;

(j) the Scottish parliament has unanimously passed Community Wealth Building legislation which provides for an economic framework including secure local jobs; and

(k) the ACT Integrity Commission is currently conducting an inquiry into arrangements for lobbying and influence in government in the ACT, which is likely to provide relevant advice on future regulatory frameworks;

(3) calls on the ACT Government to:

(a) confirm its intention to commission an independent review of the Secure Local Jobs Code in the context of the wider procurement framework in early 2027, taking account of any evidence and findings from the inquiry by the Standing Committee on Public Accounts and Administration into the Secure Local Jobs Code;

(b) publish, and circulate to Members of the Assembly; draft terms of reference for the Government's review of the Secure Local Jobs Code at least one week before they are finalised to allow the community and Members to comment on them;

(c) ensure the terms of reference incorporate:

(i) consideration of the application and effectiveness of the Government Procurement (Charter of Procurement Values) Direction 2020;

(ii) consideration of the principles of community wealth building, as outlined in the *Community Wealth Building Act 2026* (Scotland); and

(iii) an assessment of the effectiveness of Local Industry Participation Plans in increasing opportunities for ACT-based businesses, subcontractors, apprentices and local supply chains, and whether the current framework delivers demonstrable value for money and local economic benefits;

(d) on or before the first sitting day in October 2026, provide the Assembly with:

(i) an update on the progress of an independent review of past procurements with elevated risk of corruption similar to those identified in Operation Kingfisher, including providing information on the methodology being applied in that review; and

(ii) documentary evidence of the status of the 2015 Memorandum of Understanding with UnionsACT, including showing when it was terminated;

(e) on or before the first sitting day in February 2027, provide the Assembly with an update on the Government's review of the Secure Local Jobs Code; and

(f) fully comply with all aspects of the current procurement framework, including the full intent of all provisions designed to keep political and improper external influence at arm's length of decision-making; and

(4) requests that the Standing Committee on the Integrity Commission and Statutory Office Holders, subsequent to receiving the anticipated report on lobbying from the ACT Integrity Commission, inquire into and provide recommendations on reforms to the ACT's lobbying framework, including with respect to the management of transparency registers."—

be agreed to—put and passed.

HCSD.C.1	Business Cases	Northside Hospital Project Enabling Works business case	01-Mar-24	HCSD	247	Prejudice to proper functioning of government	This Business Case was disclosed with limited redactions under a return to the Legislative Assembly in response to a prior order to produce documents. The redactions made to the document in this return are identical to those previously accepted by the Assembly following the Arbiter's report (pp 10-12, C.43.HCSD). The release of any redacted sections would result in significant financial harm to the Territory throughout the rest of the project. This project has not completed procurement yet. A delivery partner has been selected under a VECI contract. The project is still in the VECI phase. Should the ECI or lump sum conversion process at the end of each phase not demonstrate value for money the Territory reserves the right to return to market for a competitive Request for Tender process. Noting both the possibility that a Request for Tender process may be required and that further negotiation is required through the transition to ECI and Main works offer, the release of the redacted information would guide the delivery partner on the budget that the Territory has available and will in turn influence pricing. This will impact the Territory's ability to demonstrate value for money as the delivery partner will focus on the Territory's maximum budget rather than on their estimate of actual costs. Tenderers would be requested to provide their response to the project across a number of criteria. This includes for example their approach to stakeholder management, methodology or the risks associated with the project. This is used to assess tenderers' ability to respond to complex information

							within a defined period of time and their skill and capability with projects of a similar scope and complexity. Releasing detailed information prior to completion of procurement will mean that the Territory can no longer rely on this method as an assessment criterion. Release of options consideration and risk analysis provided to tenderers will impact the Territory's ability to negotiate contract terms.

iCBR .C.1	Summary	Options - SCHEDULE OF ACCOMMODATION	21/5/26	iCBR	151			
iCBR.a.1	Report	Whole of life cost report for the NorthCanberra Hospital Project that informed the preferred option in the Business Case.	26-Nov-25	Rider Levett Bucknall	180	Prejudice to proper functioning of government	On 28 January 2026, Rider Levett Bucknall delivered a report to the Territory (represented by iCBR) which provides the Territory with the NHP Concept Design Cost Estimate for Option 2B (Cost Estimate Report). The Cost Estimate Report was obtained by the Territory to inform both its assessment and position in relation to the costs of the NHP. It signals the Territory's 'willingness to pay' for the main works of the project. The disclosure of the Cost Estimate Report would	

Document reference	Document type	Description	Date of creation	Author	Number of pages	Claim of Privilege	Claim details	Personal Information 213A(r)
							plainly weaken the Territory's bargaining position in future negotiation processes and otherwise impair future procurement processes. The Territory would be placed at a commercial disadvantage either through the Early Contractor Involvement (ECI) and Main Works offer negotiations, or through an alternative market approach. The Territory would be unable to demonstrate value for money, in the largest single investment by the Territory in health infrastructure as a direct consequence of compromising its commercial position before the procurement and contract negotiation stages. It is not possible to disclose the report in a redacted form as even limited information creates a real risk of harm where that information is likely to inform the market that the Territory is retaining additional budget to account for project delivery risks or is willing to pay for an element that might otherwise be considered a supplier risk. The disclosure of the Cost Estimate Report would likely compromise the financial interests of taxpayers, where the NHP remains in the VECI phase and subject to future commercial negotiations and/or procurement processes.

iCBR.C.3	Business Cases	Northside Hospital Project Early Works Business Case	Feburay 2025	iCBR	226	Prejudice to proper functioning of government	This Business Case was disclosed with limited redactions under a return to the Legislative Assembly in response to a prior order to produce documents. The redactions made to the document in this return are identical to those previously accepted by the Assembly following the ACT Government Projects — Business Cases Interim Report dated 13 August 2025 by the Hon Keith Mason AC KC (Arbiter's report) (pp 10-12, C.42.iCBR). The release of any redacted sections would result in significant financial harm to the Territory throughout the rest of the project. This project has not completed procurement yet. Multiplex was selected as the delivery partner under a VECI contract. The NHP is still in the VECI phase. Should the ECI or lump sum conversion process at the end of each phase not demonstrate value for money the Territory reserves the right to return to market for a competitive Request for Tender process. Noting both the possibility that a Request for Tender process may be required and that further negotiation is required through the transition to ECI and Main works offer, the release of the redacted information in the Business Case would guide the delivery partner on the budget that the Territory has available and will in turn influence pricing. This will impact the Territory's ability to demonstrate value for money as the delivery partner will focus on the Territory's maximum budget rather than on their estimate of actual costs. Tenderers would be requested to provide their response to the project across a number of criteria. This includes for example their approach to

							stakeholder management, methodology or the risks associated with the project. This is used to assess tenderers' ability to respond to complex information within a defined period of time and their skill and capability with projects of a similar scope and complexity. Releasing detailed information prior to completion of procurement will mean that the Territory can no longer rely on this method as an assessment criterion. Release of options consideration and risk analysis provided to tenderers will impact the Territory's ability to negotiate contract terms and achieve value for money.	
iCBR.D.1	Program time line	Northside Hospital Project Options Time line	30-Mar-26	Turner and Townsend	3	Prejudice to proper functioning of government	The release of the program will prejudice future negotiation processes, and the Territory will be placed at a commercial disadvantage in its negotiations either through the ECI and Main Works offer negotiations or through a market approach should the ECI or Main Works offer not prove to be value for money. The Territory's program timeline contains confidential and commercially sensitive information on the Territory's indicative milestones and the duration of the Main Works for the NHP. The disclosure of the information would weaken the Territory's bargaining position in future negotiation processes and otherwise impair future procurement processes. The reason is that a contractor could use that information in commercial negotiations to determine how long the Territory has budgeted for a particular stage and overall completion, including any contingency that there may be.	

Document reference	Document type	Description	Date of creation	Author	Number of pages	Claim of Privilege	Claim details	Personal Information 213A(r)
							If this commercially sensitive information were to be published, it will weaken the Territory's bargaining position in commercial negotiations. It could also be used by a contractor to gain a commercial advantage by delaying negotiations until closer to the Territory's indicative commencement date (to limit the Territory's options to go to market and still achieve its program timeline) and provides insight into the Territory's contingency planning (where money has been budgeted and may be available). The Territory will not be able to achieve value for money, where the procurement and contract negotiation stages are compromised by release of the Territory's commercially sensitive information, such as details about The Territory's 'willingness to pay' for elements of the project. The document cannot be released with partial redactions given all details and assumptions regarding sequencing, staging, critical path and program float would influence the cost of the project to the Territory.	

Document reference	Document type	Description	Date of creation	Author	Number of pages	Claim of Privilege	Claim details	Personal Information 213A(r)
iCBR.E.1	Register	Risk Register - Major	01-Jun-26	Turner and Townsend	2	Prejudice to proper functioning of government	The release of the risk register will prejudice future negotiation processes, and the Territory will be placed at a commercial disadvantage in its negotiations either through the ECI and Main Works offer negotiations or through a market approach should the ECI or Main Works offer not prove to be value for money. The Territory's assessment of risks throughout the NHP is confidential and commercially sensitive information. The Territory's assessment of risk through the Risk Register directly informs commercial negotiations. The Territory will seek to transfer risk where appropriate to a contractor, but the disclosure of its assessment would weaken its bargaining position and its ability to transfer that risk. The Territory will not be able to achieve value for money, where the procurement and contract negotiation stages are compromised by release of the Territory's commercially sensitive information, such as details about The Territory's 'willingness to pay' for elements of the project. The document cannot be released with partial redactions, given all details regarding the Territory's willingness to retain or transfer risk to third party providers and knowledge regarding the particular risks being tracked by the Territory, and by extension, the potential contingency within the budget for that risk, is detrimental to the Territory's ability to achieve value for money.
