

To Whom it may concern

I am writing in support of the brumbies proposal to seek a variation to the Territory Plan No 307-Griffith 42, Block 15 to allow for residential development.

To my mind this development would be in line with the governments urban infill program and would create affordable living in a very desirable area of the Nation's Capital.

The bowling club as it stands is unsightly and I do believe the proposed development would better for Canberra in the long term.

Yours faithfully

Simon Southwell
