Subject: Inquiry into the Crimes (Bill Posting) Amendment Bill 2008

Dear Committee,

I wish to support the proposal to fine people who affix posters to private and public property. I suggest that the fines be increased if the poster is affixed by using paste. Adhesive paste causes considerable damage to the surface when removed and removal is much more costly. The provision which will fine promoters who recklessly fail to prevent the offence is a good one. As a body corporate committee member I also support the application of this new law on private property.

Sincerely,
Chris Emery,
REID ACT 2612
