Dear Ms Le Couteur,

I am writing in response to your letter of 28 August 2009 informing me of several adverse reflections on the ACT Greens and one on myself that were included in a submission that was lodged into the inquiry into *Auditor-General report No 7 of 2008: Proposal for a gas fired power station and data centre – site selection process*.

While I do not agree with the statements about the ACT Greens put forward in this submission I acknowledge that these are the views of this submitter and they have the right to express them. I therefore make no comment.

The claim on page 15 that I had stated the ACT Greens, "are just the same as Labor", is totally inaccurate and therefore it is important to correct the record. The headline of an article in the City News on 22 April, 2009 contained similar wording. This was not a quote from me but rather the work of the journalist.

Yours sincerely
