Dear all

I am writing to let you know that City and Environment Directorate (CED) is implementing a voluntary redundancy program as part of a broader ACT Government approach to manage workforce growth.

Our Director-General is hosting an All Staff Townhall at 11.30am today to announce this program. I have attached the materials our teams will receive following the meeting.

- The prepared materials outline the process to reflect the Enterprise Agreements – we are very happy to work through any concerns or questions you might have.
- While expressions of interest will open today, EOLs will not be assessed until we have taken on any feedback you have on the proposed process.
- Staff participation will be voluntary, and decisions will be guided by the need to maintain delivery of priority government work and essential services.
- Staff who remain with CED will not be expected to do more with less – as part of this process, CED will identify opportunities to streamline or stop certain activities or work programs to ensure that workloads do not exceed safe working capacity.

Luke Garrett, our project lead, and I will be your primary contacts through the program. We will arrange a meeting tomorrow, as well as a series of standing meetings next week to provide opportunities for you to ask questions as they arise.

Thank you

Lisa
