

I am writing in support of the Brumbies proposal to seek a variation to the Territory Plan No.307 – Griffith, Section 42, Block 15 to allow for residential development. The Brumbies are an important community institution and it is disappointing that a small section of the community choose to attack them for proposing to develop a dilapidated and failed bowling and licensed club site, which is an absolute eye-sore, into quality residential accommodation that would be welcomed by the overwhelming majority of residents of Canberra.
