
The Committee will conduct a further and probably final public hearing on the inquiry on Wednesday 26 August 2015 to discuss these submissions.

Under its terms of reference, the Committee will inquire into and report on all aspects of current vocational education and youth training programs, strategies and resourcing in the ACT.

The Committee will consider the current structure, and implementation of national, regional and ACT plans and programs from the perspective of public educational institutions, Registered Training Organisations and industry-based and skills-based training programs.

The inquiry will also focus on how all these factors contribute to the best possible outcomes for those seeking vocational education and training, especially among the young and among culturally and linguistically diverse groups in the community.

Tomorrow, the Committee will hold discussions with the ACT Electrotechnology and Energy Advisory Board, Australian Skills Quality Authority, ACT WorkSafe Commissioner and the ACT Youth Coalition.

Tuesday, 25 August 2015
