COVID-19 EMERGENCY RESPONSE ACT 2020

MONTHLY REPORT ON MEASURES

Reporting period: 1-30 June 2020

Portfolio: Attorney-General

Legislation: *COVID-19 Emergency Response Act 2020*

This Act was amended by the *COVID-19 Emergency Response Legislation Amendment Act 2020*.

Measure:

- The amendment introduces a mechanism to allow the witnessing of wills, powers of attorney, health directions and affidavits by audiovisual link, as an alternative to in-person witnessing of these documents

Purpose of measure:

- The measure was introduced to address concerns raised by the legal profession about the difficulties that had arisen in ensuring that important legal documents could be witnessed given social distancing and movement restrictions arising from the COVID-19 emergency.
- In particular, there were concerns about at-risk or vulnerable individuals who were not able to attend a practitioners office but had a need to make, vary or revoke a will or powers of attorney during the COVID-19 public health emergency.
- The amendment provides a way for wills, powers of attorney, health directions and affidavits to be witnessed by audiovisual link, while including a range of procedural safeguards to ensure that the integrity of the signing and witnessing process is maintained while using the audiovisual link.

Alignment of measure:

- The measure aligns with the approach taken in NSW and adopts the procedures used in that jurisdiction to verify audiovisual witnessing.

Promotional and public awareness campaigns undertaken:

- JACS notified the ACT Law Society, Legal Aid ACT and the Public Trustee and Guardian about the commencement and effect of the measure.
- The ACT Law Society has published guidelines on the electronic witnessing of documents for the use of its members on 13 May 2020 (content available to members only).

Stakeholder engagement undertaken:

- The measure was taken in response to representations from the ACT Law Society and legal profession.
- The Law Society's Elder Law and Succession Law Committee was consulted about this amendment.

Cost of the measure:

- Nil.

	\$'000	\$'000	\$'000	\$'000
Net Operating Impact	-	-	-	-

Where measurable, provide details on the monthly and cumulative impact:

- The measure provides an additional pathway for the witnessing of wills, powers of attorney, health directions and affidavits by audiovisual link. As these documents are not necessarily required to be registered or monitored by the ACT Government, it is not possible to directly measure the use of this method of witnessing on a monthly basis.
- On 22 June 2020, the Law Society's Elder Law and Succession Law Committee reported that while the measure may be very useful in particular situations, it was not clear that it was yet being widely used by practitioners.
- With the gradual easing of COVID-19 social distancing restrictions, the Committee was of the view that the measure would be rarely used in the future.

COVID-19 EMERGENCY RESPONSE ACT 2020

MONTHLY REPORT ON MEASURES

Reporting period: 1-30 June 2020

Portfolio: Attorney-General

Legislation: *Gaming Machine Act 2004*

This Act was amended by the *COVID-19 Emergency Response Legislation Amendment Act 2020*. The legislative amendments to this Act that give effect to the measures being reported on in this document are listed in Attachment A.

Measure: To include a requirement for clubs to report on emergency community purpose contributions in their annual reports.

Purpose of measure:

- This measure is consequential to amendments made in the *COVID-19 Emergency Response Act 2020*. Those amendments allow clubs to make community purpose contributions for the purpose of ‘providing relief or assistance to the community in relation to a COVID-19 emergency’, including contributions made in accordance with an emergency community purpose contribution declaration.
- The *Gaming Machine (Emergency Community Purpose Contribution—Club Employees) Declaration 2020* [DI2020-139], made under new section 166A of the *Gaming Machine Act 2020*, allows clubs to claim as emergency community purpose contributions wages or salary paid to club employees and payments made to emergency-affected club employees from 23 March 2020 until 23 March 2021. These payments must be equal to, or more than, the relevant minimum wage (including allowances) under the *Registered and Licensed Clubs Award 2010*.
- The measure requires clubs to set out in their annual report the percentage of their net gaming machine revenue that has been contributed for ‘providing relief or assistance to the community in relation to a COVID-19 emergency’, in line with the reporting requirements for the other community purposes set out in section 166 (1) of the *Gaming Machine Act 2004*.
- Since not all clubs report on a standard financial year (July-June) basis, this provision applies to club reporting years that end after 23 March 2020 (after which clubs ceased normal operations due to COVID-19).

Alignment of measure:

- ACT only initiative.

Promotional and public awareness campaigns undertaken:

- No promotional and public awareness campaigns were undertaken as the measure is specific to clubs' community contribution reporting requirements.

Stakeholder engagement undertaken

- Direct engagement has been undertaken with clubs and club representatives through existing communication channels.
- Revised *Community Contribution Scheme Guidelines* incorporating this measure and a range of other measures recently introduced by Government, will be provided to assist licensees in understanding the detail of the changes.

Cost of the measure

- Nil.

Where measurable, provide details on the monthly and cumulative impact:

- Under changes to the community contributions scheme that commenced on 1 July 2019, clubs are required to report on their community purpose contributions as part of annual reporting requirements, and this information must be made publicly available.
- For clubs with gross gaming machine revenue of \$200,000 or more per annum, an audited community purpose contribution statement must be prepared. Otherwise, the information must be set out in a written statement attached to the club's certified income and expenditure statement.
- As noted above, this measure provides for reporting on community purpose contributions made in connection with a COVID-19 emergency.
- The impact of this measure will become evident as clubs report on community purpose contributions made.

COVID-19 EMERGENCY RESPONSE ACT 2020

MONTHLY REPORT ON MEASURES

Reporting period: 1-30 June 2020

Portfolio: Attorney-General

Legislation: *Leases (Commercial and Retail) Act 2001*

This Act was amended by the *COVID-19 Emergency Response Act 2020* and the *COVID-19 Emergency Response Legislation Amendment Act 2020*.

The legislative amendments to this Act that give effect to the measures being reported on in this document are listed in Attachment A, beginning with the amendments made in the *COVID-19 Emergency Response Act 2020* followed by subsequent amendments made in the *COVID-19 Emergency Response Legislation Amendment Act 2020*.

Measure:

- The amendment under the *COVID-19 Emergency Response Act 2020* created a head of power in the *Leases (Commercial and Retail) Act 2001* (the Leases Act) that allows the Minister to respond quickly and flexibly to the impacts of COVID-19 on commercial tenancies by making a Declaration.
 - The *Leases (Commercial and Retail) COVID-19 Emergency Response Declaration 2020* (the Declaration) was notified on 11 May 2020. The Declaration is a disallowable instrument.
 - The Declaration requires landlords and tenants to negotiate in good faith before seeking to evict a tenant or exercise a right of enforcement under a commercial lease, to which the Leases Act applies. Negotiations must have regard to the leasing principles in the National Code of Conduct (the National Code) as agreed by National Cabinet.
- The *COVID-19 Emergency Response Legislation Amendment Act 2020* made consequential technical amendments to the Leases Act to clarify that a COVID-19 emergency may be declared under the *Emergencies Act 2004* as well as the *Public Health Act 1997*. This aligns the language of the declaration-making power in relation to what is a COVID-19 emergency across several related measures, as well as when a declaration would expire after a COVID-19 emergency ends.
 - These amendments made by the *COVID-19 Emergency Response Legislation Amendment Act 2020* are technical amendments rather than substantive measures. As such, these provisions will not be reported on in current or future reporting to the ACT Legislative Assembly.

Purpose of measure:

- The amendment under the *COVID-19 Emergency Response Act 2020* was necessary so that the Minister could respond quickly to the impacts of the COVID-19 pandemic on leasing issues, including in relation to commercial tenancies. If the measure had

not been implemented, the Minister would not have had the ability to support COVID-19 pandemic affected commercial tenants in a timely fashion.

Alignment of measure

- The amendment under the *COVID-19 Emergency Response Act 2020* and the Declaration align with National Cabinet's decision to implement the National Code in respect of those tenants unable to meet their financial obligations under a commercial tenancy agreement during, and for the recovery period following, the COVID-19 pandemic. The Declaration gives effect to the National Code in the ACT.

Promotional and public awareness campaigns undertaken

- The ACT Government has established a Commercial Tenancies Administration Committee comprised of industry representatives and an independent chair to provide guidance on the implementation of the Declaration and to raise awareness of the Declaration and its associated arrangements within the commercial tenancies sector.
- Guidance material is available on the ACT Government COVID-19 website to assist commercial tenants and landlords to understand how the Declaration will be implemented in the ACT.
- Mr Brendan Smyth has been appointed as the COVID-19 Local Business Commissioner and has been engaging with landlords and tenants in the ACT on the application of the Declaration to encourage negotiation in good faith.
- On 25 June 2020 the Chief Minister delivered a key note address, with a question and answer session at the Property Council Australia Event "Canberra Recovery Plan – Navigating our way back". The Chief Minister provided an overview to industry on the ACT's approach to the National Code.
- A new section of the ACT Government COVID-19 webpage was launched on 3 July 2020 containing information about the application of the National Code of Conduct and material for landlords and tenants to assist in their commercial leasing negotiations.

Stakeholder engagement undertaken

- Ongoing consultation with the Commercial Tenancies Administration Committee:
 - Renee Leon PSM – Chair
 - Alfonso del Rio – Member
 - Adina Cirson – Member
 - Anthony Brierley – Member
- Consultation with State and Territory counterparts.
- Consultation with the Local Business Commissioner.

COVID-19 EMERGENCY RESPONSE ACT 2020

MONTHLY REPORT ON MEASURES

Cost of the measure

- Minor costs have been incurred in relation to the administration of the arrangements under the Declaration. These costs have been met from the Chief Minister, Treasury and Economic Development Directorate's existing budget allocation.

Where measurable, provide details on the monthly and cumulative impact

- The Declaration is linked to the commercial tenancy rates relief assistance provided by the Government as an incentive for landlords and tenants to negotiate revised leasing arrangements in good faith.
 - As at 26 June 2020, the ACT has received 311 applications under the rates relief assistance measure.
- As at 30 June 2020 the Local Business Commissioner has had 119 requests for assistance – more than half of those coming from tenants. Of the 119 requests, 85 have been resolved.

COVID-19 EMERGENCY RESPONSE ACT 2020

MONTHLY REPORT ON MEASURES

Reporting period: 1-30 June 2020

Portfolio: Employment and Workplace Safety

Legislation: *Long Service Leave (Portable Schemes) Act 2009*

This Act was amended by the *COVID-19 Emergency Response Act 2020* and the *COVID-19 Emergency Response Legislation Amendment Act 2020*.

The legislative amendments that give effect to the measures being reported on in this document are listed in [Attachment A](#), beginning with the amendments made in the *COVID-19 Emergency Response Act 2020* followed by subsequent amendments made in the *COVID-19 Emergency Response Legislation Amendment Act 2020*.

Measure: The current provisions for access to portable long service leave entitlements require a recognised period of service (eligibility period) before entitlements can be accessed. They do not allow workers to access these entitlements early in cases of hardship such as is currently being experienced as a result of the impacts of COVID-19. Temporary amendments will allow eligible registered workers early access to long service leave entitlements during the COVID-19 pandemic. Eligibility for early access and the amount of long service leave that may be accessed are to be determined by the Minister for Employment and Workplace Safety by disallowable instrument.

These amendments supersede amendments in the *COVID-19 Emergency Response Act 2020* by omitting and replacing those amendments with the same amendments with consequential changes to align with a consistent definition of the COVID-19 emergency and expiry of COVID-19 measures.

Purpose of measure:

- The purpose of this measure is to enable eligible workers whose employment has been negatively impacted because of the COVID-19 emergency to access long service leave.
- The amendments will support workers who have suffered hardship because of the COVID-19 emergency and cannot work and earn as a result.
- The amendments will temporarily allow:
 - eligible workers to access leave earlier than is currently allowed under the portable schemes legislation; and
 - eligible workers who have exited the industry during the COVID-19 emergency before they become entitled to portable long service leave, to access a payment instead of leave for their recognised service.
- The amendments will also temporarily allow workers who have exited the industry permanently to be able to apply for a payment instead of leave without having to wait for 20 weeks to pass.

- Eligibility was determined under the *Long Service Leave (Portable Schemes) COVID-19 Emergency Leave Determination 2020 (No 1)* and commenced on 21 May 2020 to allow workers to be able to apply from this date to access the temporary entitlements. Eligible workers are workers who have:
 - 18 months or more recognised service in a covered industry in the ACT; and
 - recognised service in the last 12 months; and
 - suffered hardship because they are unable to work and unable to earn because of COVID-19.

Alignment of measure

- ACT only initiative

Promotional and public awareness campaigns undertaken

- As the measure was implemented in May 2020, noting the activities reported in the May 2020 report for this measure, no further promotional and public awareness campaigns have been undertaken in June 2020. Information on the measure continues to be available on the ACT Long Service Leave Authority website at: <https://actleave.act.gov.au/early-access/>.

Stakeholder engagement undertaken

- As this measure has now been implemented, no further stakeholder engagement was required in June 2020.

Cost of the measure

	\$'000	\$'000	\$'000	\$'000
Net Operating Impact	-	-	-	-

- The financial impact of the measure is budget neutral for the ACT Budget.

COVID-19 EMERGENCY RESPONSE ACT 2020

MONTHLY REPORT ON MEASURES

- The financial impact of this measure will impact the funding of the schemes managed by the ACT Long Service Leave Authority and funded from levies paid by employers covered under the portable leave schemes.
- As a reliable estimate of the net financial impact of the measure on funding of the portable leave schemes will be impacted by the period for which the COVID-19 emergency remains in force, it is not appropriate to provide an estimate in this section, noting the level of reporting provided in the following section.

Where measurable, provide details on the monthly and cumulative impact

- From 21 May 2020, eligible workers were able to apply for access to the temporary early access COVID-19 leave.
- For the period 1 June 2020 to 30 June 2020:
 - 55 early access claims were made;
 - 60 early access claims were paid by the ACT Long Service Leave Authority; and
 - total amounts paid from 1 June 2020 to 30 June 2020 by the ACT Long Service Leave Authority for early access claims was \$129,323
- Total impact of the measure to 30 June 2020 is:
 - a total of 80 early access claims have been made;
 - a total of 71 early access claims have been paid by the ACT Long Service Leave Authority;
 - a total of \$154,978 has been paid up to 30 June 2020 by the ACT Long Service Leave Authority for early access claims.

This Act was amended by the *COVID-19 Emergency Response Act 2020*. The legislative amendments to this Act that give effect to the measures being reported on in this document are listed in Attachment A.

- This measure also allows for a person to be considered 'present' or give consent at court if they appear by telephone or an audio visual link.
- The measure provides that an acknowledgement may be given in writing or before the court. It also requires that an acknowledgement must be recorded by the court.

MONTHLY REPORT ON MEASURES

Reporting period: 1-30 June 2020

Portfolio: Attorney-General

Legislation: *Powers of Attorney Act 2006*

This Act was amended by the *COVID-19 Emergency Response Legislation Amendment Act 2020*. The legislative amendments to this Act that give effect to the measures being reported on in this document are listed in Attachment A.

Measure:

- The amendment provides enhanced obligations for attorneys in relation to record keeping and separation of the principal's property from the property of the attorney, which will apply where the principal has capacity to manage their affairs as well as when the principal has lost capacity.

Purpose of measure:

- The COVID-19 emergency is expected to increase reliance by vulnerable individuals on their attorneys (as they may be more isolated and need assistance to conduct transactions). This may also lead to an increased risk of elder abuse and misuse of powers of attorney.
- This measure is intended to strengthen requirements for attorneys to keep records of all transactions conducted and to maintain separation of their own property from the property of the principal, whether or not the principal still has capacity.
- These requirements aim to ensure greater transparency regarding the use of a power of attorney and to facilitate investigation of any concerns.

Alignment of measure:

- The measure is consistent with the approach taken in Victoria.

Promotional and public awareness campaigns undertaken:

- JACS notified the ACT Law Society, Legal Aid ACT and the Public Trustee and Guardian about the commencement and effect of the measure.
- The ACT Law Society has published guidelines for its members on 13 May 2020 about the additional obligations of attorneys around COVID-19 emergency (content available to members only).

Measure: Public Trustee and Guardian requirement to provide information or documents.

Purpose of measure:

- The measure responds to present circumstances resulting from the COVID-19 emergency to remove doubt in relation to the powers and functions of the Public Trustee and Guardian (PTG).
- The amendment to section 66 of the *Public Trustee and Guardian Act 1985* (PTG Act) will enable the PTG to require an individual to provide it with information or documents relevant to exercise its functions under the PTG Act or another Territory law. Without this amendment, the power to obtain documents in the provision would be limited to entities that are not individuals.
- In the PTG's role as examiner, it is required to verify expenditure, income, assets and liabilities as reported by a financial manager in relation to a protected person. The amendment gives the PTG the power to require an individual to provide this information, in order to reduce any potential difficulty it may have obtaining it from the financial manager during the COVID-19 emergency period. This is essential as it helps to reduce delay in the enforcement of the protected person's rights that may otherwise occur. It also assists the PTG's validation of information provided by individuals relating to expense claims incurred.

COVID-19 EMERGENCY RESPONSE ACT 2020

MONTHLY REPORT ON MEASURES

Reporting period: 1-30 June 2020

Portfolio: Attorney-General

Legislation: *Residential Tenancies Act 1997*

This Act was amended by the *COVID-19 Emergency Response Act 2020* and the *COVID-19 Emergency Response Legislation Amendment Act 2020*.

The legislative amendments to this Act that give effect to the measures being reported on in this document are listed in Attachment A.

Measure: The amendment creates a head of power that allows the Minister to respond quickly and flexibly to the impacts of the COVID-19 response on residential tenancies. The head of power allows the Minister to make declarations about things such as a moratorium on evictions or limits on property inspections to support social distancing. The Minister is also able to make a declaration permitting tenants and landlords to re-negotiate the amount of rent payable during the COVID-19 public health emergency.

A consequential amendment was also made to align the language of how a COVID-19 emergency and expiry of the amendments is described.

Purpose of measure:

- The purpose of the measure is to allow the Minister to respond efficiently and effectively to the impacts of the COVID-19 pandemic on residential tenancies and occupancies.
- It enables the Minister to put in place appropriate measures to reinforce public-health social distancing during the COVID-19 response period by, for example, restricting access to premises under residential tenancy agreements for the purpose of undertaking physical inspections and non-urgent repairs.
- The measure will also enable the Minister to support tenants and occupants who are economically impacted by the COVID-19 pandemic by, for example, prohibiting the termination of a lease in circumstances where a tenant or an occupant is unable to pay rent or occupancy fees and is issued with a notice to vacate for rent or fee arrears.
- If the measure had not been implemented, the Minister would not have the ability to support COVID-19 pandemic affected tenants and occupants to remain in their households in circumstances where they might otherwise face homelessness. This could arise if a tenant or occupant's lease is terminated and/or the lessor recovers possession of a tenant or occupant's premises.
- Pursuant to the measure, the Residential Tenancies (COVID-19 Emergency Response) Declaration 2020 (Disallowable instrument DI2020-46) (**the Declaration**) commenced on 22 April 2020 and introduced a number of provisions that amend the operation of residential tenancies and occupancies during the period of the Declaration as follows:

- Part 2 – Temporary reduction in rent or occupancy fees (ss 3,4): Modifies section 8(1) of the *Residential Tenancies Act 1997* (the Act) to allow a lessor and tenant to agree to include a COVID-19 temporary rent reduction clause in the residential tenancy agreement and provide that a reversion to a previous rental amount after a temporary reduction is not a rent increase for the purpose of the Act. It also enables parties to an occupancy agreement to agree to a reduced occupancy fee for a stated period because of financial hardship arising from the COVID-19 pandemic.
- Part 3 – Moratorium on terminations, rent increases etc (ss 5-11): Part 3 introduces a moratorium period from 22 April 2020 to 22 July 2020 (and allows the Minister to extend that period up to a further three (3) months). The moratorium period applies to households impacted by the COVID-19 pandemic (for example, if one or more rent-paying household members have stopped earning income or their income has been reduced and the household's weekly gross income has reduced by at least 25% or if a member of the household became eligible for JobSeeker or JobKeeper). If tenants in an impacted household are unable to meet their financial commitments during this period, lessors are prohibited from issuing a termination notice, applying for certain orders (such as a termination and possession order), listing personal information about tenants in a residential tenancy database and from increasing the amount of rent payable under a residential tenancy agreement. In relation to impacted households that are subject to an existing ACT Civil and Administrative Tribunal (ACAT) application for termination for failure to pay rent, the ACAT is prohibited from making any order until after the moratorium period has ended. If COVID-19 impacted households have already had a termination order or warrant issued against them but have not yet vacated the property, this part allows them to apply for suspension of those orders or a stay on the warrant for a period not longer than the moratorium.
- Part 4 – Access to premises (ss 12-13): Part 4 restricts a lessor from physically accessing premises under a residential tenancy agreement unless the lessor: has obtained the tenant's consent, has applied to the ACAT (in accordance with an order by the ACAT) or is required to do urgent repairs to the premises. Subject to limited exceptions, the lessor may only inspect a premises by audio-visual or other electronic means.

Alignment of measure:

- The measure (specifically, new section 177(1)(a)-(b)) and the Declaration (Part 3) aligns with National Cabinet's decision (on 29 March 2020) to implement a six-month moratorium on evictions for those unable to meet their financial obligations under a residential tenancy agreement due to the impact of the COVID-19 pandemic. Although the moratorium period in the ACT is for an initial period of three (3) months, the Minister is able to extend that period up to a further three (3) months.

COVID-19 EMERGENCY RESPONSE ACT 2020

MONTHLY REPORT ON MEASURES

The Government has publicly indicated its intention to extend the moratorium to the full 6 month period agreed to by National Cabinet.

- While the National Cabinet decision was limited to an eviction moratorium and encouragement for landlords and tenants to agree to rent reductions, all jurisdictions across Australia have introduced additional measures for residential tenancies in response to COVID-19. The additional measures introduced in the ACT (limits on tenancy database listings, limits on rental increases, and limits on access to premises), as well as those outlined above, are similar to provisions introduced in other jurisdictions.

Promotional and public awareness campaigns undertaken:

- On 24 June 2020, the ACT Revenue Office emailed 45,214 ACT residential landlords and tenants who were registered on the ACT Revenue Office's Rental Bonds Portal with information about measures put in place by the ACT Government to assist landlords and tenants who are financially impacted by COVID-19. The email included a weblink to the 'information for tenants and occupants' webpage which now appears on the the Justice and Community Safety Directorate's website (JACS).
- In May 2020, the ACT Government announced that it had engaged the Conflict Resolution Service (CRS) to provide a restorative free residential tenancy mediation service (the Service). The Service aims to resolve rental disputes between tenants and landlords in the ACT who are impacted by COVID-19, including in relation to reaching agreements to reduce rent. Information about the Service is provided on the JACS 'information for tenants and occupants' webpage and the CRS website: <https://crs.org.au/about-crs/residential-tenancy/>
