**Categories:** PUR

To whom it may concern,

Please do NOT allow billboards in the ACT.

Having lived in places where they are allowed, (eg, Brisbane), I have no desire to see our city end up looking like a strip mall in the USA with advertising for "longer lasting sex" and who knows what else.

The lack of billboards in the ACT ensures the built environment is so much more pleasant than interstate counterparts. Let's keep it that way.

Regards,

Jacqueline White
