**Subject:** SUBMISSION: TERMS OF REFERENCE Re: Acknowledgement of additional submissions

Your terms of reference:

a select committee be established to inquire into the most effective and efficient model of an independent integrity commission for the ACT and that the committee make recommendations on the appropriateness of adapting models operating in other similarly-sized jurisdictions, as well as:

- (a) the personnel structure of the commission to ensure the appropriate carriage of workload;
- (b) governance and funding that delivers independence;
- (c) the powers available to a commission;
- (d) the educative functions of a commission;
- (e) issues regarding retrospectivity, including human rights, and the timeframes around which former actions can be assessed;
- (f) the relationship between any commission and existing accountability and transparency mechanisms and bodies in the ACT; and
- (g) any other relevant matter.

I refer you to all of my submissions.

ICAC to have the power to stop Kangaroo killing based on evidence such as that has been sent by me, and to order that all fictional reports made by the Government against Kangaroos and the status change of Eastern Grey Kangaroos as a controlled native species be removed from all Plans, Strategies, Acts, etc along with the removal of fines and convictions against animal activists who defend Kangaroos and other

native wildlife in the Nature Conservation Act restoring Eastern Grey Kangaroos as endangered protected native species, with heavy fines and imprisonment for killing (see Wildlife Carers Group Animal Welfare and Management Strategy Submission that also shows huge amounts of taxpayers money being abused on the killing and infertility program that is driving them to extinction).

Canberra was rated as the 2nd highest city of homelessness, and yet the Government showed complete negligence to the community by the Legislative Assembly Members being increased from 17 to 25 members, with the current budget adding more hardships, poverty, homelessness, with an increase of 20% to electricity and gas, 7% rates rise, that will be an average increase of \$150 higher for owners of units, 3% water abstraction rise, utilities levy increasing by 5% annually, trams costing for planning minister Mick Gentleman's trip to North America last year that cost taxpayers \$70,538, when it would have been cheaper to take a trip to Melbourne and try driving around dodging dangerous tram tracks that increase traffic congestion, cause accidents etc, trams to Woden cost of over \$25 million with a possible total cost of \$959 million, petrol increases that Canberra has the 3rd highest costs in Australia instead of decreasing petrol costs that should only cost 70 cents a litre, etc.

ICAC to have the power to block finance and to stop the Government as mentioned above, including for trams and any other abuse of taxpayers money as per (g) that is destroying the bush capital and that is causing more hardships and poverty to the community.

ICAC to have the power to investigate the DPP, Law Courts, ACAT - in breach of their professional duty to the consumers and complainants, etc, Solicitors/Barristers, the Government, Government Agencies, including the RSPCA that is another Government Agency, ICRC - in breach of their

professional duty to the consumers, Consumer Affairs, Insurance, car registration renewal, power and gas, etc as per (g).

All Submissions to be published to show transparency by the Conservator of Flora and Fauna etc, for example on the Eastern Grey Kangaroos Controlled Native Species Management Plan and complying with the evidence in the submissions by rejecting the Plan and being prevented from approving any further death warrants on the Eastern Grey Kangaroos, along with cancelling the current killing of Eastern Grey Kangaroos.

ICAC to have the power to abolish land and water rates.
