Inquiry into referred 2015–16 Annual and Financial Reports
ANSWER TO QUESTION TAKEN ON NOTICE
Tuesday, 28 February 2017

Asked by MR COE:

In relation to:

How many stop work notices were issued and for what reasons were they issued?

MR RAMSAY: The answer to the Member's question is as follows:–

Three stop work notices were issued in 2015-16 by the Construction, Environment and Workplace Protection Division within Access Canberra. The notices were issued:

- to stop building works on a home while safety issues were addressed in relation to an excavation on the property. The notice is still in force.
- to stop building works while the Development Application was still under assessment and final approvals had not been provided. The notice is no longer in force.
- where it was reported that unapproved works were being conducted. The notice was revoked following investigation where it was found the works were exempt from requiring building approval.

Approved for circulation to the Standing Committee on Economic Development and Tourism
