

Inquiry into Appropriation Bill 2026–2027 and Appropriation (Office of the Legislative Assembly) Bill 2026–2027

Answer to question taken on notice

Asked by: Mr Emerson MLA

Addressed to: Canberra Institute of Technology

In relation to: Program completion rates

Hearing: 23 July 2026

Uncorrected Proof Transcript p 120

Transcript provided: 30 July 2026

Answer Due: 6 August 2026

Mr Rogers took on notice the following question(s):

MR EMERSON: Can I lodge something on notice now?

THE CHAIR: Yes, sure.

MR EMERSON: Just I am curious about completion rates broken down by program.

Mr Rogers: Sure.

MR EMERSON: I am not sure what allows for that to be accurate data, you know, if it is the last three years or five years, to make sure you are, you know—

Mr Nichols: We can definitely take that on notice and provide it.

Mr Rogers: The answer to the Member's question is as follows:

While qualification completion remains an important measure of VET outcomes, it does not capture the full value delivered by the system. Many students enrol to acquire specific skills or competencies that support employment, career progression, or personal development rather than to complete an entire qualification. Others may transfer to a different qualification after successfully completing units relevant to their goals. The Jobs and Skills Australia report Partial VET Completion: Insights on Outcomes and Pathways (June 2026) report highlights that partial completion can still deliver significant benefits, including improved labour market participation, continued engagement in education and training, and greater economic independence. As such, qualification completion rates should be considered alongside the broader range of outcomes achieved by VET learners.

National TAFE completion rates (source: NCVER VET qualification completion rates 2024 data builder)	43.4%			38.5%			32.3%			22.3%								
CIT completion rates (source: NCVER VET qualification completion rates 2024 data builder)	42.5%			40.7%			34.4%			21.2%								

* The completion data calculated internally is approximately 18 months ahead of NCVER data so completion rates are higher

Caveats

- The analysis includes full qualifications only
- Qualifications with fewer than 10 commencements have been excluded.
- Completion rates are calculated as the proportion of qualification commencements in a given year that ultimately resulted in a qualification completion.
- Completion rates for more recent years are expected to increase over time as students continue and complete their studies.
- Some students may have transitioned to updated training package qualifications and therefore may not have completed the original qualification in which they first enrolled.
