On 13 August the Minister for Health made a ministerial statement in relation to hydrotherapy services in south Canberra. During the statement the Minister tabled the report titled Access to hydrotherapy in the ACT and spoke on the recommendations contained in the report, which included that “Canberra Health Services and ACT Health engage quickly and in enough depth with Arthritis ACT to make clear the basis on which it has drawn its conclusions regarding the safety and fit for purpose condition of The Canberra Hospital pool. This should be a defined and time-bounded process, of weeks at most.”

On 15 August the Minister for Employment and Workplace Safety made an annual statement in relation to asbestos related works across Canberra. The Minister provided an update on the activities that have taken place in the last 12 months and stated that 973 of the 1 023 affected properties have been demolished as at 30 June 2019. Motions debated

On 14 August Miss Candice Burch MLA moved a motion in relation to cancelled weekend bus services. The motion noted that since the commencement of Network19, Transport Canberra has failed to
achieve its stated target of 99.5 per cent of total services delivered to completion on weekends. The motion also called on the Government to explain to the Assembly what the Government is doing to improve the provision of real-time information about cancelled services to customers. During debate the Government moved amendments which included noting that Transport Canberra are currently undertaking rolling recruitment for new drivers and that the average weekend reliability is 89 per cent which the Government has acknowledged is not meeting community expectations. The Government amendments were agreed to by the Assembly. The ACT Greens then moved amendments to the amended motion which called on the Government to release an action plan that includes examining how more timely cancellation information passengers could be provided and examining better ways of notifying passengers of service cancellations. The Opposition indicated they would not support the ACT Greens amendments to the motion as they did not actually call on the Government to improve notification about cancelled weekend services. The amendments were agreed to by the Assembly.

The amended motion was agreed to by the Assembly.

On 14 August Mr Pettersson MLA moved a motion in relation to **Stage 1 Light Rail services**. The motion noted that 20 per cent of all boardings across the entire public transport network are now on a Light Rail service and that public transport journeys starting in Gungahlin have increased 32 per cent compared to the same period last year. The motion also noted that due to the success of Light Rail, services are nearing capacity in peak periods, and called on the Government to work with Canberra Metro to explore the possibility of increasing services during the peak periods. The ACT Greens moved an amendment to the motion to report back to the Assembly by the end of its November 2019 sitting on the progress of this work. The amendment was agreed to by the Assembly.

The amended motion was agreed to by the Assembly.
