In relation to :

Are there any places where there is a hub and spoke feeding into a light rail system?

**SHANE RATTENBURY MLA: The answer to the Member's question is as follows:-**

I can confirm that the Gold Coast light rail system, "G:link", will operate on a hub and spoke model with some existing bus routes being removed to reduce duplication with light rail, while other bus routes will be redesigned to offer connections to the light rail.
