Child & Adolescent Mental Health Service

Project Update September 2025

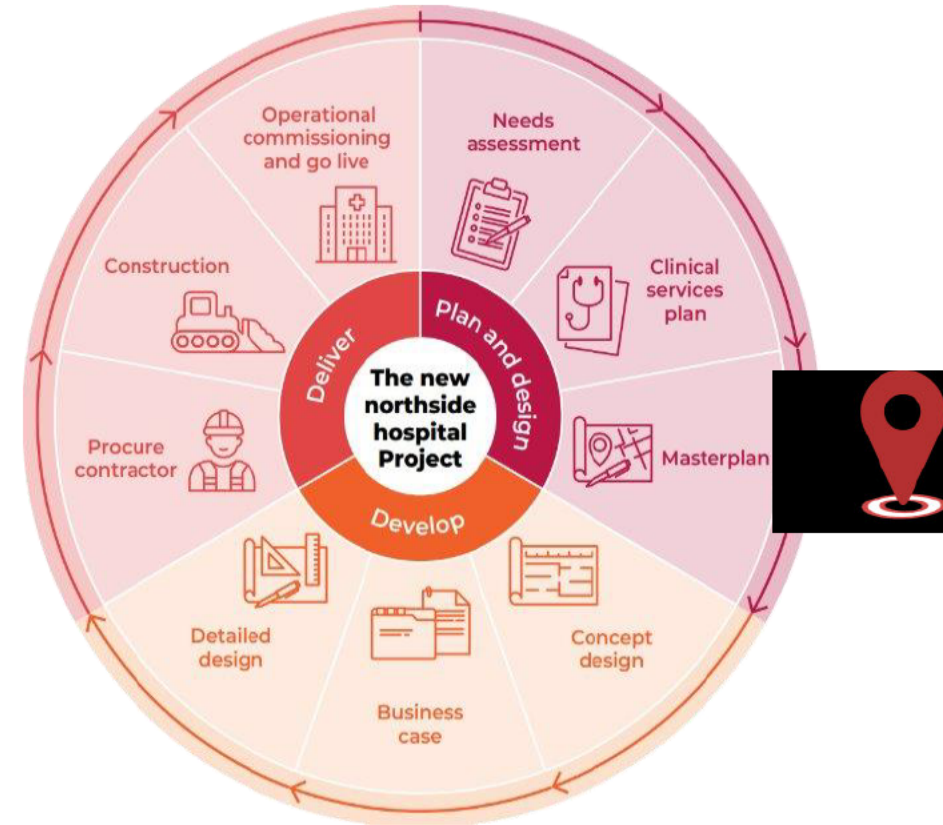

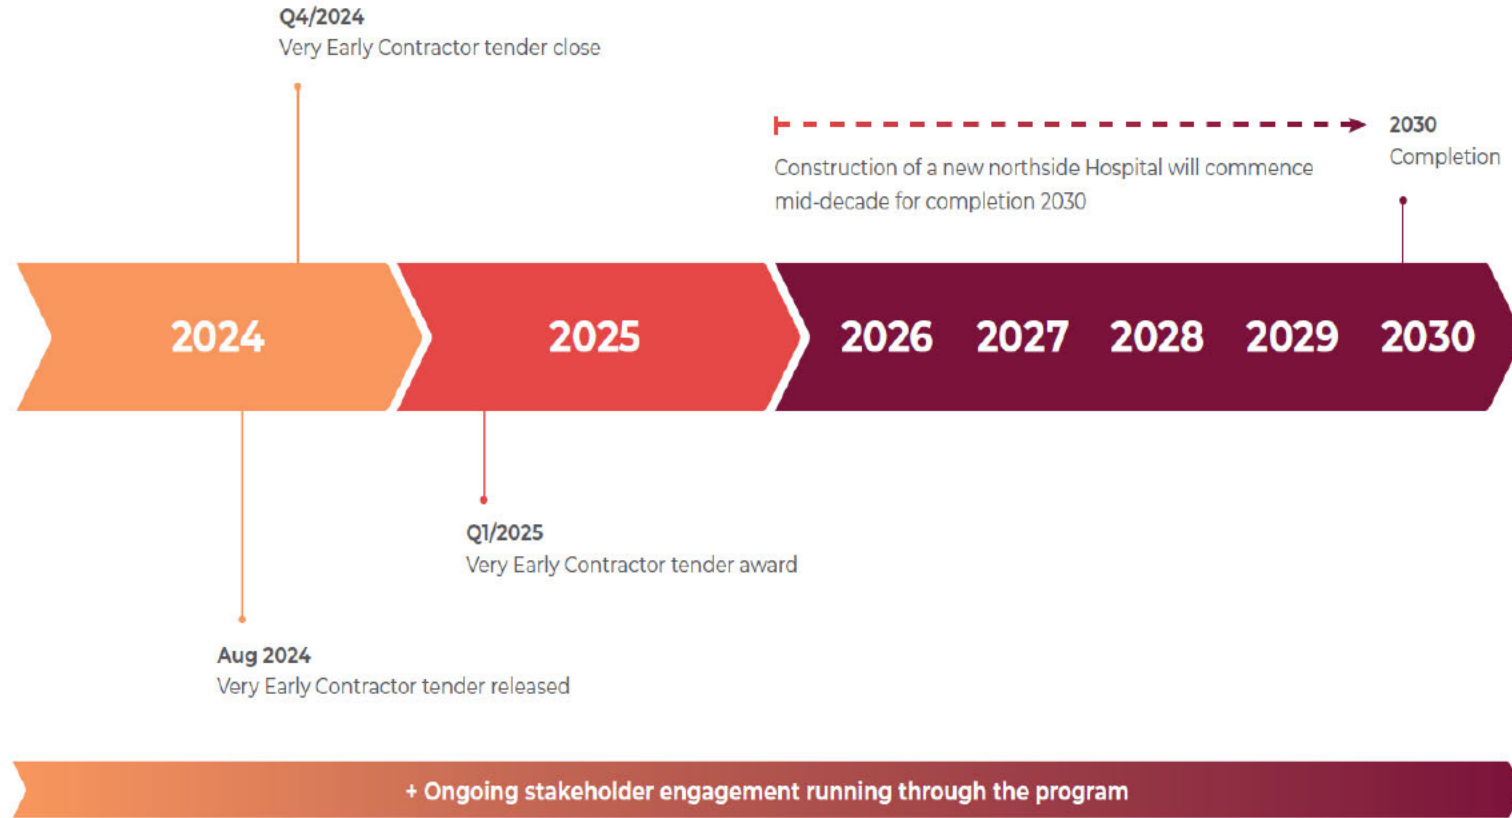

Acknowledgement of Country

We acknowledge the Ngunnawal people as traditional custodians of the ACT and recognise any other people or families with connection to the lands of the ACT and region.

We acknowledge and respect their continuing culture and the contribution they make to the life of this city and this region.

Northside Hospital Project

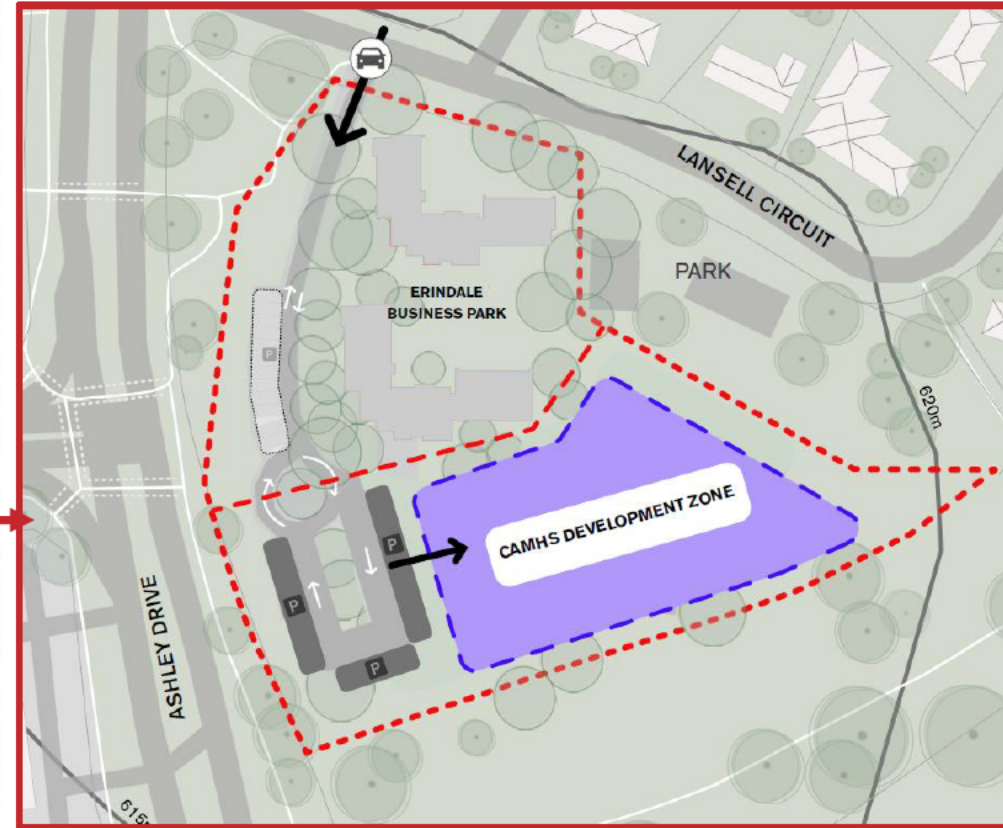

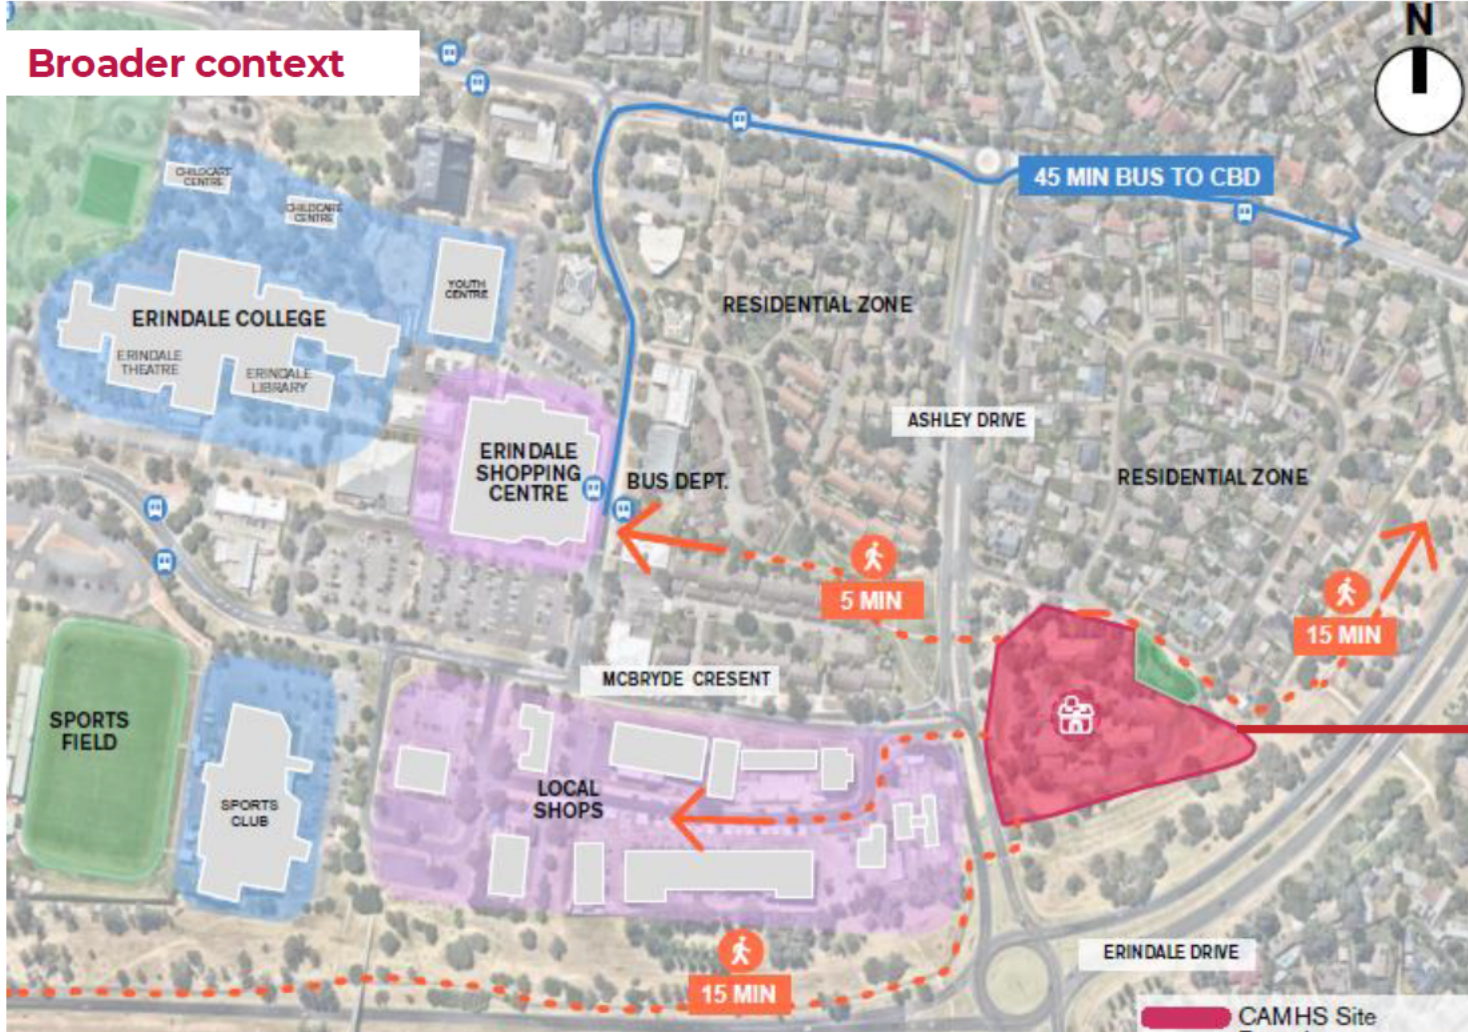

The Cottage update

- The Cottage relocation presents an opportunity to ensure these services are in the right location, are functional for clinicians, welcoming for patients and environmentally sustainable.
- In August 2024, a site at Lyons was announced as the preferred site for the relocation of the Child and Adolescent Mental Health Services (CAMHS) Cottage.
- Through the next planning phase and in consultation with CAMHS Executive stakeholders, the Project Team was made aware of the key functional requirements of the new CAMHS facility including:
 - Single story building to enable clinical oversight.
 - Opportunities for a variety of public and private spaces.
 - Connection with surrounding green spaces.
 - Functional car parking for consumers and staff.

Concept Design

- The architect, BLP, has been progressing the design of the CAMHS facility at Erindale.
- During the Concept Design phase, a range of building shapes were assessed to determine the layout that best meets the Functional Design Brief.
- The Donut Shape was selected as the preferred design option for the CAMHS Erindale facility during the stakeholder user group meetings.

Next steps

How to get involved

- We look forward to working closely with staff, clinicians and consumers to help us design the new facility.
- As we continue the design process there will be opportunities to provide feedback with staff and consumers/

We will continue to keep you informed, but if you have any questions at any time, please email us at:
